How to Build A 2.8 Million $ Addition

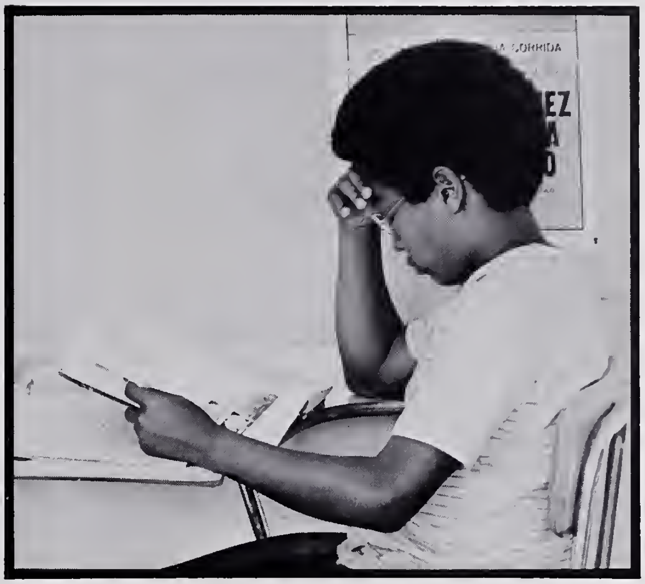
A special Town Meeting was held in October of 1971 to discuss and vote upon the issue of an addition to the High School. Opponents to the addition felt that present facilities could be used in better ways; they did not feel that the expenditure was called for. The proposal was defeated.

At another meeting in June of 1972 the proposal gained additional support because the State would assume 15 percent more of the costs. This time the proposal was passed with an allocation of 2.8 million dollars. The main elements of the addition involve more gym facilities and a pool, a new library, Open Classrooms, new science labs, and renovation of existing areas into a new Fine Arts department.

Students in Longmeadow are fortunate in having access to such excellent facilities. However, it should be remembered that a building is only a physical structure — it is the students who are most important.

$1,276.00 =

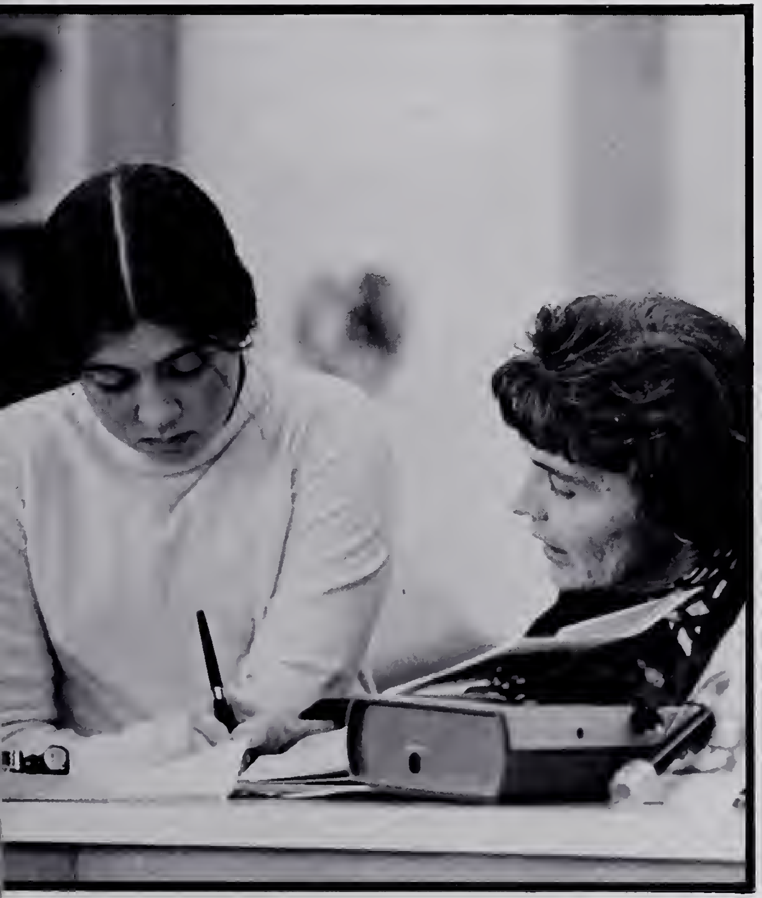
This year, the average cost per student in the High School is $1,276. This monetary value in no way represents the possibilities of growth and experience which one may encounter. The outcome of one's learning experience depends upon the individual and how much time and effort he is willing to contribute. Students have the opportunity to build themselves and establish individual identities. Some students are able to gain more than others in their four years at the High School.



LA CORRIDA

Building Friends . . .

The years one spends in school allow a person to establish many friendships. These relationships are built not only in the classroom, but also through activities, sports, or even in the parking lot. The school environment provides the opportunity for students and teachers to get to know each other as people.



Responsibility is . . .

Both the Senior and Junior Classes had Open Door Programs this year. Both programs were in constant jeopardy of being suspended due to irresponsibility on the part of a small number of students. Both Classes were constantly threatened with loss of their privileges. The irresponsible students would "straighten out" in response to the warnings, however after a while the trouble would start again. Although there were problems most students were responsible enough to use the program wisely and they gained much from it.

A building is a physical structure. It has blueprints and we know when its construction is complete. People's minds are never completed. There are no blueprints, no deadlines or specifications. Our education is not completed, but rather part of an unending process.

DEDICATION

ARCHIE BENSON
DOROTHY REED

The 1973 MASACKSIC is dedicated to Archie Benson and Dorothy Reed in gratitude for their contributions to the school while heading the Custodial and Cafeteria Staffs. They represent two integral departments of the school which are necessary to its functioning smoothly.

Archie is known as a warm and friendly person. He is always ready to lend a helping hand, whether to open a jammed locker or to find materials for an activity.

Mrs. Reed is one of the most dedicated, hard-working individuals in the school. She starts her day as early as six o'clock so that she can have breakfast ready for the first students who come into the cafeteria. She is responsible for extra services such as ice cream after school, snacks, and food for various banquets.

These two people epitomize the friendliness and concern which are vital in the world today.

PUBLICATIONS

Longmeadow High School's various publications help inform the students of recent events, provide entertainment, and give the students a memorable yearbook to look back on.

OUTLET, the High School's growing literary magazine, is a collection of students' writing and artwork. The entire student body is eligible to submit contributions and the success of the magazine is due to them. The **OUTLET** staff consists of judges and art editors, who evaluate the work submitted to them, and their two advisors: Miss Ladd and Mr. Cobbs.

Homeroom period on the last Friday of every month is always an exciting moment because that is when the hard work of the **JET JOTTER** staff pays off and everyone receives their newspapers. Through the **JET JOTTER,** which has received several literary awards, the students become aware of upcoming events and are kept informed of current news. The newspaper also provides amusing stories and anecdotes, all written by the hard working members of the staff.

"Those were the days my friend . . ." You will be able to remember those days by flipping through the pages of Longmeadow High's Yearbook — **MASACKSIC.** Photographs of High School life and activity are captured in its pages, as well as those never to be forgotten moments of the years spent at Longmeadow High. The **MASACKSIC** staff works constantly throughout the year to publish an excellent book. Many people do not realize that **MASACKSIC** is a business with costs running into several thousands of dollars each year. It is interesting to note that the staff loses about four dollars on every book that it sells, because the price paid by those who buy a book accounts for only 60 percent of what each book costs the staff to have published.

SEMINAR DAY II

On the eventful date of December 8th, the hard work and long planning of the **SEMINAR DAY II** Committee proved itself worthwhile. Seminar Day II, which involved not only Longmeadow High School, but the entire community, was a great success! The day was comprised of various seminars beginning at 9 o'clock in the morning and continuing as late as 9 o'clock at night. These seminars, conducted by students, teachers, college professors, and members of the community, ranged in subject matter from Japanese Flower Arranging to Hockey Leagues and the Stanley Cup. The entire day was organized by a group of about thirty students with Jill Draymore as the Student Coordinator and Mrs. Allison as the Faculty Advisor. Their hard work was paid for when the day turned out well and both the students and teachers, full of enthusiasm, began looking forward to Seminar Day III!

Robert D. Russell
Superintendent of Schools

It has been reported that the LHS faculty members possess certain mystical powers that enable them to disintegrate each afternoon at 3:00 and mysteriously reappear the next morning at 8:00. The editors of this section would like to dispell this rumor. For in spite of any quirks, mystical or otherwise that they may have, teachers are p-e-o-p-l-e. You know, with families and hobbies and ideas. But be careful whom you tell — you might ruin their image!

For example, our principal **Mr. Craver.** He leads LHS on an educational journey. An opportunist, he is always trying to improve the school by introducing a course in Chinese, for instance. In the summer he is an associate professor at Springfield College, teaching courses in school administration and curriculum development. Also, he loves to play tennis and go sailing. Assistant Principal **Mr. Teixiera** is the high school liason for the Building Addition and Renovation Commission. He is Student Council Advisor and coordinator of the Independent Study Program. With these responsibilities come the tasks of reading, taking courses at UMass, and studying laws to keep the school in step with the times. Also, Tex is the director and original president of the Zoological Society. He enjoys sports and tries to see at least one game a week. **Mrs. Miller's** official title is Student Advisor and Co-ordinator of Student Activities. When she's not "advising" or "coordinating," she likes to play golf and tennis, to bicycle, and to do crewel and embroidery. She came to LHS from Glenbrook Middle School where she taught math.

Mr. Climo is LHS Guidance Coordinator. He is treasurer of the ACAC, a counseling organization, and director of JA. Courses at UMass and the Masons also occupy his time. He and his family sing in the Christ Church Cathedral choir and spend summers relaxing in Rindge, N.H. **Mr. Thwing** works nine or ten hours a day doing academic, college, and personal counseling; he is the Liason Counselor to the Class of '74. Ecology, organic foods, and orgonomy interest him. Between performing duties as a counselor and coaching swimming team, **Mr. Luzzatto,** too, finds himself busy. He has some time, though, for woodworking and ACT. In her spare time, **Mrs. Patten** likes to play bridge and golf. She keeps a year-round garden; she takes courses at Springfield College. Among her duties at LHS is coordinator of the Indian Exchange Program. Counselor **Miss Jensen** is on the LHS Evaluation Committee and a scholarship committee; she is an editor for a guidance publication. For relaxation, she enjoys fishing, swimming, and traveling. In the summer, **Mr. Kane** coordinates a center for emotionally disturbed kids. During the school year, along with counseling and its various aspects, he coaches freshman football. **Mr. Lamarre** is interesting because he is interested-in everything and everyone. Reading teacher, he helps manage the Lancer Bookstore and advises AFS. He loves the outdoors: canoeing, hockey, and taking nature walks with his family.

Mrs. Paige teaches developmental reading. Out of school she teaches courses in antiques; she enjoys gardening and collecting stuffed animals. **Miss Baird,** LHS librarian, is interested in "almost anything involving people". She likes travel, music, painting, and spectator sports. She advises Library Student Aides. **Mrs. Low** has done nearly every type of nursing, including surgery and supervising at Wesson Hospital. She enjoys her position as school nurse at LHS because she likes teenagers.

The **secretaries** keep the school running smoothly . . . They are all qualified — Mrs. Bonsall even has a teaching degree in English. Why do they work at LHS rather than, say, at an insurance company? They like young people. They like being in the academic atmosphere. Their daily tasks are varied — there is no grinding routine. Also, the vacation schedule coincides with that of their children. Of course, they have individual reasons for working here. Mrs. Beachman feels greatful to the Longmeadow School System for being unusually good to her own children. Mrs. Denver, library secretary, loves books. So the secretaries feel lucky to work at LHS, and we are lucky to have them.

Memorial to Mr. Donlon

I will remember this man,
At ease in a room of powders, liquids, and metals.
His shock of fiery hair,
A smile set to burst and envelop me,
In his catching laughter.
He'd perch on a high, gray stool,
Bent over a student's pitiable work,
Intent in his criticism and advice.
Eyes twinkling with fun and amusement,
Unaware that I admired him.

FIELD HOCKEY

It was another typical year for the girls in Field Hockey as far as records, but the fun and spirit which always accompanies the sport was greater than ever. Cathy Bliss, varsity fullback, felt next year's team will be something to look forward to. The attack was held by junior Celia Canavan and senior co-captain Maryalice Rooke, while a strong defense of senior captain Donna Pratt, junior Debbie Evans, and the team's goalie Kathy Horner held the games to reasonable scores.

GIRLS' SWIMMING

"Wait until next year" seemed to be an appropriate phrase for the girls swim team this year. The major problem was depth, therefore this was a building year. Ten freshmen were included in the toal cast of 32 swimmers. Highlights of the year included placement of freshman Jenny Holloman in the 200 Freestyle, sophomore Cindy McCray in the 100 Freestyle, and sophomore Kristie Sanford in the 100 Butterfly in Western Mass. competition. Captain Mary McCosker led the divers by reaching the semi-finals of the diving competition of Western Mass. Needless to say, the future looks very bright.

The girls of Longmeadow gymnastics had a very consistent season, ending the year with a record of four wins and three losses. Twelve members of the team represented the Lancers in Western Mass. competition, and led Longmeadow to a top position in the final standings. Sophomores maintained a large point average for the girls in leotards, and the captains, Andrea Tindal and Celia Canavan, were the top scorers, as well as leading the spirit of the team, which is ever so important in the quest for victory.

DRILL TEAM

One part of LHS that is rarely appreciated is the Drill Team. Our halftimes are generally filled with the smiling faces and moving legs of these dedicated girls. Precision and timing are the main ingredients that put together the finely polished performances of the marching students. The group was coached by Mrs. Webster, and the 7 A.M. practices probably seemed all too frequent. But we must all admit that it proved to be well worth their trials of early morning practices. Left, right, left, right . . .

GIRLS' BASKETBALL

It was an exasperating season for the girls in black kilts on the basketball court, as the talent was greater on this year's team than ever before. Unfortunately, the squad couldn't seem to get it all together, as they finished the long season with a disappointing record of 7-10. Experience was a factor, since the team was made up of only four seniors, and five juniors. The J.V. team was very impressive and could help to build a strong team in the near future.

CHEERLEADING

The key to a school's spirit is in the hands of its cheerleaders. The LHS cheerleaders are a dedicated group of girls who practice many hours throughout the school year and appear at many Lancer sports events, rain or shine. They add pep, enthusiasm, color, and spirit to each game, whether on the field or on the court. A cheerleader has come to be accepted as a necessary part of sports, and is essential in leading the Lancer teams to victory after victory. The squad was led by captain Mary Dwyer, and co-captain Linda Lilie, helped to round out a successful year.

LEADERS

As large as it is, the Leaders Club is individually, as well as collectively valuable to the school. The athletically inclined who gave up their studies to help out fellow students are a testimony to the dedication to athletics in our school. The leaders are also greatly appreciated by the physical education teachers, who sometimes need a hand in typical gym classes. As the school increases in size, so will the gym classes, and Leaders Club will continue to serve the school to a great extent.

BROOKS JOHNSON

The 1973 **MASACKSIC** Editors and Staff wants to extend special thanks to **BROOKS JOHNSON** and **ERWIN HAUSAMANN,** photographers, and **DON LENDRY** of the American Yearbook Company.

We thank them for: Conferences at all hours of the day and night; Hours spent in the darkroom; The skill and knowledge they gave us; And their time and patience. We could not have done it alone.

To **Erwin** we wish a Senior class which orders pictures early; to **Brooks,** a bright sunny day and uncut proof sheets; to **Don,** two more organizers for Editors and an infinite supply of 3-R forms.

THANKS GUYS . . .

THOMAS MONAGHAN GLYNN, JR.

JUNE 11, 1954-NOVEMBER 6, 1972

Tommy Glynn lived a very full life. To say that he was never sad and confused, bitter or regretful, will do him no justice. But he saw these moments in their perspective. He knew the value of life and he loved it. He knew that the meaningfullness of his existence could only be found in loving the people and ideals closest to him. His parents, his brothers and sisters, and his friends were all representatives and mirrors of his love of life."

Phil Glynn

"LIFE IS THE REACHING OUT AND TOUCHING SOMEONE TO SHOW THEM YOU CARE. LIFE HAS TO BE THAT."
